

MSU Health Care

Discover the Benefits of Hand Therapy

Why Should I Refer My Patient to a Certified Hand Therapist?

At MSU Health Care, our certified hand therapist brings specialized expertise to understand and address the intricacies of hand and upper extremity conditions. This practitioner offers comprehensive care that extends beyond physical aspects, incorporating emotional and psychological factors to foster complete healing.

What Can a Certified Hand Therapist (CHT) Do for Your Patients?

With a commitment to evidence-based treatment, our CHT remains updated with the latest research, ensuring your patients receive the most effective and scientifically proven therapies. Each patient receives a personalized treatment plan tailored to their individual needs and goals, with a strong emphasis on pain management and overall comfort. The ultimate goal is functional restoration, empowering patients to regain their independence.

Why Choose MSU Health Care's Hand Therapy?

By choosing MSU Health Care's Hand Therapy, you are selecting a Certified Hand Therapist (CHT) who is dedicated to being a specialist in the field. Your patients become the center of care, with their unique needs and goals at the forefront of the treatment plan. Our holistic approach ensures that physical, emotional, and psychological aspects are all considered in the healing journey. The therapies provided are grounded in the latest research and best practices, guaranteeing the highest standard of care. Every patient benefits from a customized treatment plan, and the primary focus is on achieving exceptional outcomes that restore function and enhance overall quality of life.
